

Omnidirectional Dynamic Microphone

OWNER'S MANUAL — Please read before using this equipment.

Your RadioShack Omnidirectional Dynamic Microphone is a high-quality microphone that gives you the performance you need for your PA or recording system. Its directional pickup pattern allows equal sensitivity to sound coming from all directions. It is ideal for use in meetings and conferences.

Its other features include:

10-Foot Cable — connects easily to a PA or recording system with a 1/4-inch jack.

Wire-Mesh Windscreen — cuts down on wind noise and breath pops.

Built-In On/Off Switch — gives you convenient control of the microphone.

Microphone Holder — swivels so you can adjust the position of the microphone.

OPERATION

1. Plug the microphone's 1/4-inch (6.35-mm) plug into the microphone jack on your PA or recording system.

2. Turn on your PA or recording system.

3. Switch **ON/OFF** to **ON** to turn on the microphone. When you finish using the microphone, switch **ON/OFF** to **OFF**.
